Viva Rivera! His 5 TD's boost Greater Lowell to a Super Game !

By CARMINE FRONGILLO Sun Staff

Greater Lowell Tech's standout senior tailback Miguel Rivera had just finished shredding East Boston's defense for 325 all-purpose yards and five touchdowns, and as he left the field for the final time as a Gryphon he was holding onto the fruit of his labors -- a Super Bowl championship team trophy. Rivera's incredible one-man show helped lift Greater Lowell to a convincing, 45-18, victory over East Boston yesterday in an Eastern Massachusetts Division 5 Super Bowl game at Boston University's Nickerson Field.

The win improved Greater Lowell's overall record to 9-2. The Gryphons won the Commonwealth Athletic Conference Large Division title. Eastie, the Boston North champ, finished with a 10-1 record. Rivera rushed for 230 yards and four scores on 33 carries. He returned a kickoff 79-yards for another touchdown. Rivera also had a 50-yard punt return that was called back because of a penalty, and only ended up being a 16-yard return.

"This absolutely ranks as one of the best performances that I've ever seen," said Greater Lowell coach Dennis Murphy. "Miguel's a heck of an athlete. He went out like a champion. He looked like a college running back out there today. He did it all." "I could feel it," said Rivera, who rushed for 1,647 yards and scored 160 points this season. "I was in a groove. I couldn't wait to get hold of the ball and run with it. I knew once I got going, I wouldn't be stopped."

Greater Lowell fullback Andy Lopez had a big game running the ball, as well. Lopez rushed for 99 yards and two touchdowns on 24 carries. The Gryphons produced 349 yards of total offense for the game, all

of which came on the ground. Offensive linemen Derek Cloutier, Phil Naish, Ricardo Cruz, Matt Barrett and Mike Bovill served as the platform from which Greater Lowell launched its punishing ground attack. Rivera took the ensuing kickoff at the Gryphon 21, slipped a couple of tackles and raced down the right sideline for a touchdown. Jay Blake kicked the first of his three conversions and the Gryphons led 7-6.

After Rivera's return for a score, Greater Lowell seized the game's momentum and maintained it the rest of the day.

"I think that (kickoff return) was just unbelievable," said Murphy. "It elated the whole team. It was a statement play. That run by Miguel let everyone know we would never be out of this game."

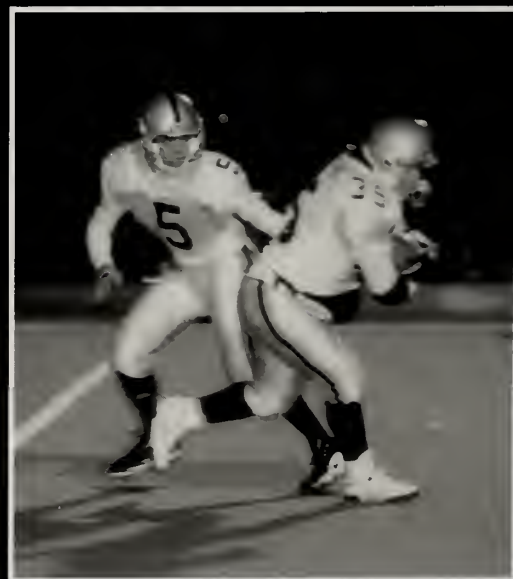

Greater Lowell went on to score on its next five offensive possessions, while building a commanding 39-12 lead.

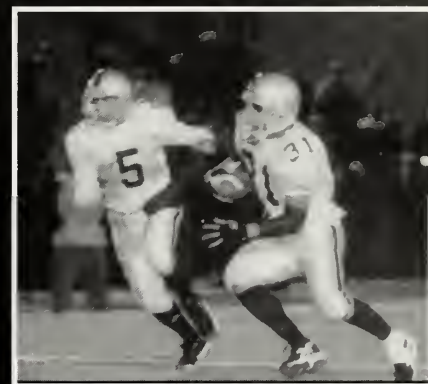

Joe Murphy, Jose Morales and Dave Callahan intercepted one pass each for the Gryphons. Tim Ramsden, Anthony Ramos, Jeff Targ, Mike Geoffroy and Joe Murphy were mainstays on defense for Greater Lowell, which lost to Millis in last year's Super Bowl.

"All we stressed all week was winning," said Joe Murphy, an inside linebacker. "All we wanted to do was win a Super Bowl. Our defense was strong when it had to be. We got in there and made some plays. We went right after them."

"All our Super Bowl wins are special, but this one is very sweet," said Dennis Murphy, who has guided the Gryphons to all of their bowl appearances. "I think this the most talented running team I've ever had. And they showed it today. I'm just lucky to coach at a great school with a great football tradition. This team lived up to that tradition today."

Administration

Sheila A. Herbert - Superintendent - Director

Superintendent's Message

Congratulations to the Class of 2001. You have studied and worked over the last four years and have acquired many skills which will enable you to now embark upon another phase of your life and your career. You have learned how to hone your skills and apply your talents. You have learned how to communicate effectively, respect yourself and others and interface with many both in the classroom and your technical field, as well as on a team or within an organization or club. Now you are ready to venture forth as contributing members of the adult community. You are about to become involved in a new life, hopefully, a life full of discovery and career fulfillment.

Remember that as you pursue your personal and professional goals, failure or success will now largely depend upon you. Your teachers, guidance counselors, advisors and coaches, who have been there for you these last four years, will no longer be present to provide the encouragement and understanding that you may have needed from time to time. Remember what they have taught you in terms of being self-reliant and self-disciplined. Remember that whatever your choices, you must live with the consequences. Make good choices!

Whatever your future holds, it is my sincere hope that you will look back on your years at Greater Lowell Technical High School as years that have prepared you properly to meet and deal with the challenges that life will present. Remember that challenges will occur. They are an integral part of life. Your success in facing these challenges will be determined by the manner in which you face these challenges. "Your attitude determines your attitude."

On behalf of the, School Committee, faculty and staff at Greater Lowell Technical High School, I wish you tremendous success and much happiness in all of your endeavors. I hope that many of you will come back and share your many successes and achievements with us.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Sheila A. Herbert'. The signature is fluid and cursive, with a large, stylized 'S' at the beginning.

GREATER LOWELL TECHNICAL HIGH SCHOOL

Who really knows what the future holds
 It's up to us, we're in control
 You can sit back and watch the world go by
 Or take a risk and learn to fly
 Spread your wings, set yourself free
 Anything is possible if you believe
 Life is too short to take the easy road
 Take a chance, let your dreams unfold
 Let your heart lead the way
 Look toward the goals, not yesterday
 So here we are in the GL of Tech
 To start a new life, that leads the way.

Linda Tran

Tomorrow

Right now it seems impossible. The surrounding circumstances hold all that is true. Will fate take it's course and realize what the best outcome will be. It is such a joy to see what is possible. Will the future crush all that is meaningful now, or will the inevitable nightfall and rising sun see what lies ahead. If all works out, happiness will follow and continue for an infinite amount of time. But if the surrounding circumstances withhold an important piece to that futuristic happiness, the efforts already exhausted, and the happiness in play will continually remind oneself of what could have been, and what may have closed a chapter in each and every one of our lives.

Jason LaFlamme

Daryl,

It seems like yesterday that you were following behind me calling Mom, Mom. Running to the door to greet your Dad with a big smile and hug. Seems like you just learned how to ride your bike with no training wheels. Then you moved on to roller-skates. Boy can you skate. Now you drive your own car, work a job, and go to school. You have grown up to be a wonderful, loving, caring, and giving person. From the little girl who wanted to learn and do everything, now you do. We are so very proud of your accomplishments and the wonderful person you have turned out to be. Whatever it is that you want out of life, you for sure will get. You can count on us for all the love and support you will need. We wish you the best things that life can offer and all the happiness you deserve.

Love, Mom and Dad

AUTOGRAPHS

A message from the Yearbook advisor,

I am deeply indebted to Nila Feliciano, graphic arts student and yearbook guru for helping me with producing this yearbook. Her dedication and hard work were greatly appreciated I would also like to recognize, the Graphic Arts students, Dan Bergeron, and Steven Thompson for the cover design and division pages. Thanks also to Mrs. Lappin's Information Processing class for compiling the class will and addresses, with a special thank-you to Linda Tran. Your help was greatly appreciated. Additional thanks to Pendleton Photographers, Dan, Sheila and crew for their superior service and professionalism. I would be remiss if I did not mention the support of my colleagues and Dominic Ierardi, who were so gracious with their time in getting pictures to me. Thank you again.

And finally, my wish for the new graduates is that you use this book often. It is your book of memories. Memories of friends, classmates, faculty, staff and counselors. All of whom you are deeply indebted for making the road to your future a smoother one.

*Follow your hearts,

The Election

After five weeks of hand recounts, court appeals, concessions and retractions, Vice President Al Gore's final concession of the presidency to Texas Governor George W. Bush and his vice presidential running mate Dick Cheney brought an end to one of the longest and most eventful elections in American history.

What happened? The Election at a Glance:

November 7 (Election Day): Shortly before 8 p.m. EST, the major television networks estimate Al Gore and vice-presidential running mate Joe Lieberman the winners.

With a too-close-to-call election throughout much of the nation, Florida becomes the key state in deciding the winner, as the next

president will need Florida's 25 electoral votes to win.

November 8: At 2:15 a.m., results from Florida begin to suggest George Bush carries the battleground state. Gore concedes the election to Bush, thinking Bush has at least a 50,000 vote lead. Forty-five minutes later, Gore gets word Bush's lead has shrunk to only a few thousand votes, and retracts his concession.

Due to the closeness of the election, the focus turns to questionable ballots and fair voting practices.

In St. Louis, Mo., a controversy arises over a lower court's ruling to keep the polls open past the 7 p.m. deadline.

In Palm Beach County, Fla., an unexpectedly large number of votes for Reform Party candidate Pat Buchanan lead to questions about the legitimacy of the punch-card-style "butterfly ballot."

AP Photo/Victor Cavano

November 9: Gore's team requests a hand recount of ballots in four Florida counties, Palm Beach, Miami-Dade, Broward and Volusia.

November 16: Bush's lawyers submit written arguments to the U.S. Federal Appeals Court to end recounts.

November 22-December 8: Hand recounts and legal battles continue, making the word "chad" (the small piece of paper punched out of the ballots) a household word.

December 9: The U.S. Supreme Court halts the manual recounts and sets a hearing for two days later.

December 13: In a public concession speech, Gore states he no longer wishes to prolong the election, and yields the presidency, making George W. Bush the nation's 43rd president, and the first chief executive since Benjamin Harrison in 1888 to claim the office with the majority of electoral votes but a minority of the popular vote nationwide.

Elian Gonzalez, a six-year-old Cuban boy found off the coast of Florida, survived yet another ordeal: the brutal custody battle between relatives in Miami and his father in Cuba. The long struggle culminated in a late-night raid on a Miami home where armed U.S. agents seized Elian by force, putting him in the custody of his father who returned with Elian to Cuba.

In a stunning surprise move, Israeli Prime Minister **Ehud Barak** announced his resignation. Barak's popularity had dropped during the ongoing conflict between Israelis and Palestinians. Barak stood for re-election, hoping for a vote of confidence from the Israeli People, but lost to Likud party leader Ariel Sharon.

Many thought peace between North Korea and South Korea would never happen, but the past year saw warming relations between the two countries, which are still technically at war. Images of North Korean leader Kim Jong Il entertaining South Korea's Kim Dae-jung at a June peace summit in Pyong-yang were considered some of the most surprising news pictures of the year.

Elections in Yugoslavia turned angry when Prime Minister **Slobodan Milosevic** lost to the people's choice Vojislav Kostunica 35 percent to 55 percent. The election's close margin of error would have warranted a recount, but Milosevic refused to hold another election, declaring himself the winner. The outraged public rallied violently in the streets of Belgrade, and the riots combined with pressure from the U.N. and Russia finally forced Milosevic to concede the election to Kostunica.

Surgeons at the University of Pittsburgh Medical Center performed the first **heart bypass** in the United States on a conscious patient. The first five cloned piglets were presented to the world in April. The pigs were cloned from fetal-pig skin cells and scientists believe that due to the similarities between porcine (pig) and human organs, the

techniques used to clone this litter may eventually create a supply of genetically modified pig livers and other organs that would be acceptable to the human immune system.

Researchers from Carnegie Mellon unveiled **Nomad**, the first robotic planetary rover with onboard intelligence. Previous planetary explorers, such as the Mars Pathfinder, needed human controllers to tell them what to do, but Nomad performs tasks such as snapping pictures, collecting samples and sending data back to earth by itself. Using a laser range finder and spectrometer, the robot analyzes every single rock in its path. Scientists hope to employ future generations of the rover to explore other planets.

It was a bittersweet victory for scientists when they successfully cloned **Adam**, an extinct species, and brought it into the world from the belly of a farm cow. The baby bull, called Noah, was born at Trans-Ova Genetics in Sioux City, Iowa, but died shortly after birth. Although Noah died, the project gives hope for ways to save endangered species and resurrect those already extinct.

After years of dreaming, planning and arguing over who should get the credit, the **International Human Genome Project** and Celera Genomics put their differences aside and officially announced they have (both) deciphered the 3.1 billion biochemical "letters" of human DNA. The amazing breakthrough will allow scientists vast insight into human health and disease at the molecular level, knowledge that will lead to a revolution in diagnosing and treating everything from Alzheimer's to cancer. The discovery is seen as one of history's great scientific milestones, the biological equivalent of landing on the moon.

A lawsuit was filed when a Chicago man said he suffered adverse allergic reactions after eating Kraft Taco Bell taco shells contaminated with **StarLink**, a form of bioengineered corn not yet approved for human consumption. Each team will work and live for four months aboard the Russian module Zvezda, conducting biological and technical experiments until another crew replaces them.

Israel-based **Cyber Imaging** Ltd. introduced a 1.18-inch-long pill camera that, when swallowed, can travel through a human digestive tract, transmitting two still images per second to a Walkman-like receiver attached to the person's belt. Within 24 to 48 hours, doctors can download the data and assemble a more accurate and complete video of the intestines than can be taken through the more traditional endoscopy.

Y2K saw great improvements in the increasingly popular **digital** camera. Manufacturers shipped 5.1 million digital cameras throughout the U.S., and the improved photo quality, reduced cost, convenience of not buying film, and ability to review and erase unwanted shots have made the digital camera more popular than ever. **TIME** Magazine named the Nikon Coolpix 990 digital camera the Machine of the Year.

Although the games received the lowest television ratings since 1968, many athletes gave inspirational performances.

United States sprinter Marion Jones fell short of her goal to win five gold medals, but still got the gold in the 100 and 200 meter sprints, and the 4x400 meter relay, as well as the bronze in the long jump and 4x100 meter relay, winning the medals in spite of the distraction of husband and shot put world champion
